

## Contents of Vol. 25

## Articles

- Reliability Analysis for  $k/n(G)$  System under Poisson Shock .....  
 ..... *Wang Guanjun* and *Zhang Yuanlin* (1)
- Testing for Homogeneity of Variance and Correlation  
 Coefficients in Uniform Correlation Models Based on  
 Longitudinal Data ..... *Fan Junhua*, *Lin Jinguan* and *Wei Bocheng* (12)
- Some Results on the Generalized TTT Transform Order  
 for Order Statistics ..... *Wang Fengxiao* (27)
- Ruin Problems for the Discrete Time Risk Model under  
 Stochastic Rates of Interest ..... *Yu Xueli* and *Xiao Gangjing* (38)
- The Statistical Analysis of Gompertz Distribution Based  
 on Tampered Failure Rate Model under Multi-step Stress  
 Accelerated Life Testing .....  
 ..... *Wang Ronghua*, *Xu Xiaoling* and *Shi Hongwei* (47)
- The Operating Characteristic Functions for Sampling  
 Inspection by Attributes Based on the Grouping Method .....  
 ..... *Pan Shenyuan*, *Yang Zhonghang* and *Lu Xiaojun* (60)
- The Covariances of Quadratic Forms of Random Variables  
 and Their Applications in Linear Mixed Models .....  
 ..... *Ma Tiefeng*, *Wang Songgui* and *Yin Sujun* (67)
- Testing Ratios of Means to Standard Deviations from Normal  
 Populations under Order Restrictions with Generalized  
 $p$  Values ..... *Li Shuyou*, *Shi Ningzhong* and *Zhang Baorue* (77)
- A Modified Likelihood Ratio Test for Homogeneity in Normal  
 Mixtures of Two Samples with an Unknown Variance .....  
 ..... *Lei Qingzhu* and *Qin Yongsong* (86)
- Comparison of Simultaneous Intervals for the Mean of  
 a Multivariate Normal Distribution .....  
 ..... *Meng Xianhua*, *Wang Jinglong* and *Wu Xianyi* (95)
- A Law of the Iterated Logarithm for MLE Based on  
 Random Censoring Model with Incomplete Information .....  
 ..... *Song Yijun*, *Li Buxi* and *Li Jihong* (113)
- Finite and Infinite Dimensional Stochastic Differential  
 Equations with Non-Lipschitzian Coefficients .....  
 ..... *Wang Fengyu* and *Wang Jieming* (126)
- On Weighted Total Least Absolute Deviations .....  
 ..... *Feng Shouping* and *Yang Guiyuan* (135)

Estimation of Structural Reliability for a Nested Multivariate Exponential Distributed Stress .....	
.....	<i>Wang Hui, Ye Cinan and Yan Guangle</i> (143)
Spectral Decomposition Method for the Covariance Matrix of Variance Components Model .....	
.....	<i>Liu Wei, Wang Songgui and Dong Ping</i> (155)
A Comparativen Study on Confidence Interval of $C_p$ in Terms of Standard Deviation Estimated by Different Methods.....	<i>Kong Xiangfen, He Zhen, Che Jianguo and Jin Huibin</i> (164)
Asymptotic Properties of Estimation in Generalized Partial Linear Mixed Models.....	<i>Zhang Hao and Zhu Zhongyi</i> (171)
Evaluating the Randomness Based on Spectral Density .....	<i>Zhu Liping and Lin Longnian</i> (185)
Strong Stability of Linear Forms with Pairwise NQD Random Sequences.....	<i>Wan Chenggao and Chen Fen</i> (192)
Ergodicity for Q-Processes with Markovian Switching .....	<i>Xi Fubao</i> (225)
A Method of Estimate of $\gamma^2$ for the Extrema of Conditional Sample Function .....	<i>Wu Jianguo</i> (238)
Variable Selection in Joint Generalized Linear Models .....	
.....	<i>Wang Darong and Zhang Zhongzhan</i> (245)
A Synthetic Control Chart Based on Cornish-Fisher Expansion.....	<i>Wu Chunjie and Wang Zhaojun</i> (257)
Estimating the Monotonic Link Function in Single-Index Models.....	<i>Yang Jianjuan</i> (266)
Strong Law of Large Numbers of Absolute Value Sequences from Varying-Coefficient ARCH Models .....	
.....	<i>Zhang Zhiqiang and Feng Jingyan</i> (275)
Some Properties of a Generalized Fractional Brownian Motion.....	<i>Lin Zhengyan and Zheng Jing</i> (281)
Estimating and Testing Parameter for Regression Credibility Model with Linear Trend.....	<i>Tang Guoqiang</i> (290)
Estimates of Variance Components in Linear Mixed Models with Random Effects.....	<i>Xu Wangli</i> (301)
The Orthogonal Saturated Effects Model and Its Statistical Analysis.....	<i>Zhang Xiaoqin and Li Shunyong</i> (309)
The Comparison of Nonparamteric Smoothing Methods for Longitudinal Data .....	<i>Qin Guoyou and Zhu Zhongyi</i> (320)
Statistical Analysis for Nonlinear Mixed Models with Random Design .....	<i>Fang Yun, Wu Ping and Zhu Lixing</i> (327)

A Generalization of the Classical Risk Model .....	
.....	<i>Zhao Yongxia and Yin Chuancun</i> (337)
A Kind of Problem of Maximizing the Expected Utility	
from the Terminal Wealth: the Case of Inflation .....	
.....	<i>Wang Guangchen and Wu Zhen</i> (345)
Generalized Multivariate Beta Distribution.....	<i>Lu Zhifeng and Wang Juan</i> (354)
EM Algorithm for Haplotype Inference Incorporating	
Ungenotyped Individuals in Pedigree Studies .....	
.....	<i>Zhao Hong, Zhu Wensheng and Guo Jianhua</i> (365)
Stochastic Prey-Predator Model .....	<i>Zhang Shulin and Wei Zhenghong</i> (375)
On Stochastic Orders for Order Statistics from	
Normal Distributions .....	<i>Huang Yongjun and Zhang Xinsheng</i> (381)
Comparison Theorem for Algebraic Convergence of	
Diffusion Processes .....	<i>Wang Yingzhe</i> (389)
Maximum Likelihood Estimation of Multivariate t-Model	
with Rao's Simple Structure and Its Exact Distribution .....	
.....	<i>Zou Qingming, Wang Jinglong and Zhu Zhongyi</i> (398)
Wavelet Estimation in Varying-Coefficient Models .....	
.....	<i>Lu Yiqiang and Li Zhilin</i> (409)
On Exact Distribution of a Class of Supremum-type	
Statistics for Goodness of Fit .....	
.....	<i>Zhang Junjian, Li Guoying and Zhao Zhiyuan</i> (421)
Bayesian Assessment for Product's Radiation Hardening	
Performance under Lognormal Distribution .....	
.....	<i>Han Feng, Wang Jianguo and Qiao DengJiang</i> (433)
Statistical Analysis on the Differences of Writing Style	
Between First 80 Chapters and Last 40 Chapters in	
《Dream of Red Mansions》(An Application of Equivalent	
Test on Two Independent Binomial Populations).....	<i>Wei Bocheng</i> (441)
A Location Invariant Pickands-Type Estimator .....	<i>Tao Bao</i> (449)
The CUSUM Control Chart for the Autocorrelated Data	
with Measurement Error.....	<i>Liu Xiaohong and Wang Zhaojun</i> (461)
Assessing Occupational Exposure Via the Unbalanced	
One-Way Random Models.....	<i>Li Xinmin</i> (475)
New Multivariate Skew t Distributions Generated from	
Skew Pearson VII Distributions .....	<i>Wen Yangjun and Zhu Daoyuan</i> (485)
The Gerber-Shiu Function for a Sparre Andersen	
Risk Model .....	<i>Fan Qingzhu and Yin Chuancun</i> (499)
Admissibility of Linear Estimators in Multivariate Linear	

Models with Respect to an Incomplete Ellipsoidal Restriction .....	<i>Wu Jianhong</i> (513)
A Note on Weighted Invariance Principle .....	<i>Li Linyuan</i> and <i>Chen Ping</i> (519)
Inference in Varying-Coefficient Mixed Models by Using Smoothing Spline .....	<i>Lu Yiqiang</i> and <i>Xu Wangli</i> (531)
Expected discounted Penalty Function for a Thinning Risk Model .....	<i>Pan Jie</i> and <i>Wang Guojing</i> (544)
The Credibility Model under Balance Loss Function .....	..... <i>Wen Limin</i> , <i>Lin Xia</i> and <i>Wang Jinglong</i> (553)
Confidence Intervals for Successive Comparisons of Ordered Treatment Effects .....	<i>Zhao Haibing</i> (561)
Some Asymptotic Properties of the Continuous-Time Stochastic Solow Model .....	<i>Wu Fuke</i> and <i>Hu Shigeng</i> (571)
A New Method in the Construction of Multi-Level Supersaturated Designs .....	<i>Lu Xuan</i> and <i>Wan Zhicheng</i> (578)
A Class of Random Approximation Theorems for Random Sums of Arbitrary Stochastic Sequence on Two-Order Nonhomogeneous Markov Chains on Random Selection System .....	<i>Wang Kangkang</i> , <i>Li Fang</i> and <i>Yang Weiguo</i> (587)
The Stochastic Transport Equation Driven by Combined White Noises .....	<i>Feng Jinghai</i> , <i>Wang Yan</i> and <i>Feng Enmin</i> (597)
Limit Properties for Random Walks in Random Environments on Half-Line .....	<i>Hu Xueping</i> , <i>Li Huibao</i> and <i>Xu Song</i> (611)
The Improved Estimates of Regression Coefficients in Seemingly Unrelated Regression Model with Two Equations .....	<i>Ma Tiefeng</i> and <i>Wang Songgui</i> (619)
Testing Hypotheses for Ratios of Normal Density .....	..... <i>Mu Weiyan</i> and <i>Xiong Shifeng</i> (632)
The Asymptotic Normality of Estimation on Semivarying Coefficient Models with Censored Data .....	..... <i>Lv Shiqin</i> , <i>Zhang Riquan</i> and <i>Lu Zhunwei</i> (641)
$\mu$ -Invariant Measures of Jump Process — Containing Absorbing States .....	<i>Wu Xinxing</i> (649)

## Survey

Histogram Theories and Optimal Histogram Construction Algorithms .....	<i>Zhang Jianfang</i> and <i>Wang Xiuxiang</i> (201)
Summary of Statistical Analysis for Zero-Inflated Data .....	..... <i>Xie Fengchang</i> , <i>Wei Bocheng</i> and <i>Lin Jinguan</i> (659)
